## Power Platform Dataverse und Power Apps (PL-7003)

Erstellen von Tabellen in Dataverse

https://learn.microsoft.com/training/modules/get-started-with-powerapps-common-data-service/

Erste Schritte mit modellgesteuerten Apps in Power Apps

https://learn.microsoft.com/training/modules/get-started-with-model-driven-apps-in-powerapps/

Konfigurieren von Formularen, Diagrammen und Dashboards in modellgesteuerten Apps

https://learn.microsoft.com/training/modules/configure-model-driven-apps-customer-engagement-apps/

Verwalten von Lösungen in Power Apps und Power Automate

https://learn.microsoft.com/training/modules/manage-solutions-power-automate/

## Agents mit Copilot Studio (PL-4022)

Erstellen eines ersten Agents mit Microsoft Copilot Studio

https://learn.microsoft.com/training/modules/create-copilots-copilot-studio

Themen in Microsoft Copilot Studio verwalten

https://learn.microsoft.com/training/modules/manage-power-virtual-agents-topics

Mit Entitäten und Variablen in Microsoft Copilot Studio arbeiten

https://learn.microsoft.com/training/modules/power-virtual-agents-entities/

Effektive Bots mit Microsoft Copilot Studio erstellen

https://learn.microsoft.com/training/modules/build-effective-bots/

Verbessern von Microsoft Copilot Studio-Agents

https://learn.microsoft.com/training/modules/enhance-power-virtual-agents-bots/

Erstellen eines Agents mit Microsoft Copilot Studio und Dataverse für Teams

https://learn.microsoft.com/training/modules/create-chatbot-power-virtual-agents-dataverse-teams/

Einen autonomen Agent in Copilot Studio erstellen

https://learn.microsoft.com/training/modules/autonomous-agent/

## Power Platform Komponenten (PL-200)

Identify foundational components of Microsoft Power Platform

https://learn.microsoft.com/training/modules/introduction-common-data-service

Load/export data and create data views in Dataverse

https://learn.microsoft.com/training/modules/load-export-data-create-data-views/

How to build your first model-driven app with Dataverse

https://learn.microsoft.com/training/modules/build-first-model-driven-app-dataverse/

Get started with Power Apps canvas apps

https://learn.microsoft.com/training/modules/get-started-with-powerapps/

Core components of Power Pages

https://learn.microsoft.com/training/modules/power-pages-intro/

Introduction to Power Automate cloud flows

https://learn.microsoft.com/training/modules/

Define and create business rules in Dataverse

https://learn.microsoft.com/training/modules/define-create-business-rules/

Dataverse reporting options

https://learn.microsoft.com/training/modules/

Introduction to solutions for Microsoft Power Platform

https://learn.microsoft.com/training/modules/introduction-solutions/

Use Microsoft 365 services with model-driven apps

https://learn.microsoft.com/training/modules/use-services-model-driven-apps/
